

Community Wellbeing Indicators

Council developed a new Strategic Plan 2023-2033. Within the Strategic Plan, Council included a set of Community Wellbeing Indicators – with these being indicators that are not necessarily within Council’s control or influence, but are intended to provide a snapshot. Each year (where possible) Council intends to provide an update on these indicators.

Population Growth

Dwellings & Divisions

*Data source: Planning Portal.

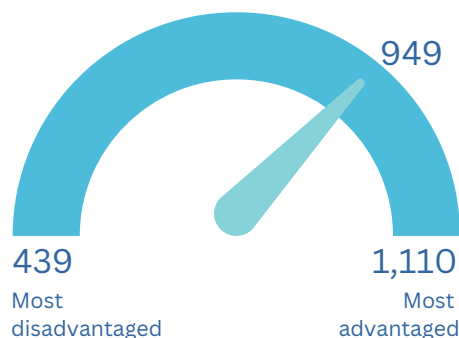

Baseline January - December 2022. Now January - December 2023
